Dear Poss,

Just a quick note to thank you and your team for making Polly's wedding dinner (Feast!) such a success. We have received many compliments from our friends about the quality and presentation of the food and would like to pass that praise on to you.

You managed so well in the sudden drought- breaking rain and seemed to handle the large number of covers with apparent ease. Your calm competence allowed Robert and I to enjoy the occasion with our guests.

Thank you once again for the job so well done—beaut food and no fuss. Just the way we like it.

Most sincerely,

Helen Snelling.
